Full Stack Developer with experience building scalable, AI-powered applications for the Ministry of Defence (Indian Army). Skilled in MERN stack, Python and Java, with hands-on experience in real-time systems such as Drone Management Platforms. Proven ability to develop secure, high-performance applications and present technology solutions to senior defence leadership, including the Chief of the Army Staff, while representing projects at national-level platforms such as the India AI Summit.

EXPERIENCE

AKC WebTech Pvt. Ltd.

Delhi, IN

Full Stack Developer (MERN) – Client: Ministry of Defence, India

Dec 2025 – Present

- Selected to demonstrate and discuss technology solutions during the Chief of the Army Staff's visit to the Directorate General of Information Systems (DGIS), Indian Army.
- Developed and deployed **PRAKSHEPAN**, an AI-powered military climatology platform used for predictive analysis of landslides, floods, and avalanches.
- Represented the **Indian Army project PRAKSHEPAN at India AI Summit**, presenting real-world defence AI applications to national stakeholders.
- Played a key contributor role in Ex-Amogh Jwala (March 2026)**, demonstrating the **Drone Management System** for mission planning and live monitoring.
- Architected and implemented end-to-end full-stack solutions for defence applications as part of the Indian Army's "**Digitalisation 3.0**" initiative, including **PRAKSHEPAN** and the **Device Log Intelligence System**.
- Building real-time defence systems including **Drone Management System (mission planning & tracking)**, **Device Log Intelligence System (device monitoring & control)**.

INTERNSHIPS

CoreCard Software India Pvt. Ltd.

Bhopal, IN

Intern – Software Development

Jun 2024 – Jul 2024

- Built and maintained RESTful APIs using **ASP.NET Core, C#, SQL, and JWT**, enhancing scalability of financial applications.
- Migrated APIs from .NET Framework to .NET Core, reducing API response time by ~20%.

The SV Web Development

Indore, IN

Web Developer Intern – eco-solar.in

Apr 2021 – Sept 2021

- Designed and deployed a **responsive commercial website** (Eco-Solar), increasing client inquiries by 25% in 2 months.
- Customized **WordPress themes and plugins**, improving SEO ranking and customer engagement.

PROJECTS

Video Proctoring System (AI-Powered Monitoring Tool) – Live Demo

- Developed an AI-driven video proctoring web application that monitors candidate behavior with real-time object detection and focus tracking using MediaPipe FaceMesh and Coco-SSD model.
- Generated automated PDF session reports for integrity checking via backend processing.
- Technology Used:** ReactJS, NodeJS, ExpressJS, MongoDB, TensorFlow.js, MediaPipe, TailwindCSS.

Pneumonia Detector (Using CNN in Python) – Live Demo

- Built and trained a CNN model with **TensorFlow/Keras**, achieving 87% accuracy on X-ray classification.
- Integrated into a **Flask web app** and deployed on Vercel for healthcare professionals.
- Technology Used:** TensorFlow, Keras, Python.

SKILLS

- **Programming Languages:** JavaScript, Python, Java.
- **Frameworks & Technologies:** ReactJS, NodeJS, ExpressJS, Prisma, RestAPIs, JWT Authentication, Tailwind CSS, ASP.NET Core, HTML, CSS.
- **Databases:** MongoDB, MySQL.
- **Core Competencies:** RESTful API Development, Web Applications, Cloud Deployment, Problem Solving (200+ problems solved on LeetCode).
- **Tools & Platforms:** Git, GitHub, Postman, VS Code, Jupyter Notebook, Canva, Vercel, Render.
- **Soft Skills:** Strong problem-solving, quick learner, effective communicator, and team player.

EDUCATION

- **MCA, Birla Institute of Technology, Mesra (Noida Campus)** | CGPA: 8.04 | *Aug 2023 – May 2025*
- **BCA, Makhn Lal Chaturvedi University (Indore)** | CGPA: 8.30 | *Aug 2020 – Aug 2023*
- **Carmel Convent Sr. Sec. School, Neemuch** | 12th (2020), 10th (2018)

ACHIEVEMENTS

- Selected to showcase technology solutions during the Chief of the Army Staff's visit to DGIS, Indian Army.
- Represented Indian Army Project PRAKSHEPAN at the India AI Summit.
- Contributed to Ex-Amogh Jwala (March 2026), demonstrating defence technology solutions in a large-scale military exercise.
- Captain, National Level Roll Ball Competition.
- Organized and managed 10+ sports events as a Sports Club member, demonstrating leadership and teamwork.
