

PRASOON JAIN

Noida, Uttar Pradesh, India 201301

Prasoonj02@gmail.com | +91-7509388996 | LinkedIn | GitHub

Summary

Full-Stack Software Developer with 1.5+ years of professional experience building scalable enterprise web applications and backend systems. Experienced in React.js, Next.js, Python, FastAPI, Node.js, PostgreSQL, and MongoDB, with hands-on experience in REST APIs, authentication, RBAC, and third-party integrations. Also experienced in Generative AI and RAG, including hybrid retrieval, embeddings, vector search, LLM integration, and AI-powered document systems.

Technical Skills

Programming Languages: JavaScript, Python, C++

Frontend Development: React.js, Next.js, Redux, HTML5, CSS3, Tailwind CSS

Backend Development: Node.js, Express.js, FastAPI, REST APIs

Databases: MongoDB, PostgreSQL, MySQL

AI & Generative AI: RAG, Hybrid Search, Embeddings, FAISS/BM25, LLM Integration, LangChain, LangGraph

Deployment & Hosting: Docker, Docker Compose, Linux, Vercel, Render

Tools: Git, GitHub, Postman, VS Code

Experience

Upsala (DGIS – Ministry of Defence)

Sep 2025 – Present

Software Developer – i-SAMA

- Built real-time GIS-based operational dashboards for Indian Army using Next.js, Redux, Python, FastAPI, and PostgreSQL.
- Integrated APIs from **15+ external defence applications** into a centralized operational intelligence platform, reducing cross-application data retrieval latency by approximately **40%**.
- Presented the platform to senior Indian Army leadership during official demonstrations and represented the project at India AI Summit 2026.

Placement Plaza

April 2025 – Sep 2025

Software Developer – MERN Stack

- Developed responsive, SEO-optimized websites like HRMS and E-Commerce products, improving page load performance by approximately 30%.
- Built reusable frontend components and integrated REST APIs using React.js, Node.js, Express.js, and MongoDB, including authentication and dashboard modules.

Projects

i-SAMA – Intelligence Situational Awareness Module for Army

2025 – Present

Next.js, Redux, Python, FastAPI, PostgreSQL, GIS

Personal Project

- Developed a GIS-based operational intelligence and decision-support platform for the Indian Army under DGIS, Ministry of Defence.
- Implemented GIS-based unit clustering and **BBOX (Bounding Box)** techniques for efficient data visualization on map.
- Implemented multi-level **Role-Based Access Control** supporting hierarchical command structures and secure data access.

DocPilot AI – AI Document Intelligence Platform

2026

FastAPI, PostgreSQL, FAISS/BM25, LangChain, LangGraph, OpenRouter, JWT, Docker

Personal Project

- Built a full-stack RAG-based document intelligence platform for secure document search, contextual Q&A, and source-grounded LLM responses.
- Implemented hybrid retrieval using **FAISS** vector search and **BM25** keyword search with PDF extraction, chunking, embeddings, and vector indexing.
- Implemented JWT authentication, RBAC, session-based chat history, multi-document retrieval, and source citations.
- Integrated LangChain and LangGraph to structure retrieval, prompting, LLM interaction, and AI workflow orchestration.

Education

Master of Computer Applications (MCA)

2023 – 2025

Birla Institute of Technology, Mesra (Noida Extension)

CGPA: 7.8

Achievements

- Represented i-SAMA at **India AI Summit 2026** alongside the Indian Army as a core member of the development team.
- Solved **300+ Data Structures and Algorithms (DSA)** problems across LeetCode and GeeksforGeeks.
- Secured **64th Rank (All India)** in the Placement Aptitude Test 2024 conducted by IIT Kharagpur.
