

PRASOON JAIN

Noida, Uttar Pradesh, India 201301

Prasoonj02@gmail.com | +91-7509388996 | LinkedIn | GitHub

Summary

Full-stack developer (1.5+ years) specializing in AI-integrated enterprise platforms. Built a production RAG-based document intelligence system (FAISS + BM25 hybrid search) and contributed to i-SAMA, a national-scale defence intelligence platform for the Indian Army under the Ministry of Defence, showcased at India AI Summit 2026. Skilled across React.js, Next.js, Python, FastAPI, and PostgreSQL, with hands-on experience shipping to production.

Technical Skills

Programming Languages: JavaScript, Python, C++

Frontend Development: React.js, Next.js, Redux, HTML5, CSS3, Tailwind CSS

Backend Development: Node.js, Express.js, FastAPI

Databases: MongoDB, PostgreSQL, MySQL

AI & Generative AI: Retrieval-Augmented Generation (RAG), FAISS, BM25, LLM Integration, Prompt Engineering, Vector Search

Deployment & Hosting: Vercel, Render, Hostinger, VPS Deployment, Linux Server Management

Tools: Git, GitHub, Postman, REST APIs, Chrome DevTools, VS Code

Experience

Upsala (DGIS – Ministry of Defence)

Sep 2025 – Present

Software Developer – i-SAMA Project

- Built real-time GIS-based operational dashboards for the Intelligence Situational Awareness Module (i-SAMA), used by Indian Army command units, with Next.js, Redux, Python, FastAPI, and PostgreSQL.
- Integrated APIs from 15+ external defence applications into a centralized operational intelligence platform, reducing cross-application data retrieval latency by approximately 40%.
- Designed multi-level Role-Based Access Control (RBAC) and secure data pipelines for classified intelligence workflows across multiple command tiers.
- Presented the platform to senior Indian Army leadership during official demonstrations and launch events, and represented the project at India AI Summit 2026.

Placement Plaza

April 2025 – Sep 2025

Software Developer – MERN Stack

- Developed 8+ responsive, SEO-optimized websites for HRMS and E-Commerce products, improving page load performance by approximately 30%.
- Built 20+ reusable frontend components and integrated REST APIs using React.js, Node.js, Express.js, and MongoDB, including authentication and dashboard modules.

Projects

DocPilot AI – AI Document Intelligence Platform

2026

FastAPI, PostgreSQL, FAISS, BM25, OpenRouter, JWT github.com/prasoonj17

- Architected a production-ready RAG platform for enterprise document search, contextual Q&A, and source-grounded responses, minimizing LLM hallucinations via grounded retrieval.
- Implemented hybrid search combining FAISS vector similarity with BM25 keyword retrieval, improving retrieval relevance over single-method search.
- Built a scalable ingestion pipeline handling PDF upload, background processing, text extraction, chunking, embedding generation, and FAISS indexing.
- Built JWT-based authentication and RBAC for user-specific document access, session-based conversation history, and multi-document retrieval with source citation.

Education

Master of Computer Applications (MCA)

2023 – 2025

Birla Institute of Technology, Mesra (Noida Extension)

CGPA: 7.8

Achievements

- Represented i-SAMA at **India AI Summit 2026** alongside the Indian Army as a core member of the development team.
- Secured **64th Rank (All India)** in the Placement Aptitude Test 2024 conducted by IIT Kharagpur.
- Solved **300+ Data Structures and Algorithms (DSA)** problems across LeetCode and GeeksforGeeks.
