

PRASOON JAIN

Noida, Uttar Pradesh, India 201301

✉ Prasonj02@gmail.com | +91-7509388996 |  LinkedIn |  GitHub

Summary

Full-Stack Software Developer with 1+ year of professional experience building scalable web applications, enterprise platforms, and defence intelligence systems. Skilled in React.js, Next.js, Python, FastAPI, PostgreSQL, Node.js, and MongoDB. Experienced in frontend development, backend engineering, API integrations, deployment, and cloud hosting. Contributed to the development of the Intelligence Situational Awareness Module (i-SAMA), a GIS-based operational intelligence platform for the Indian Army under the Ministry of Defence.

Education

Master of Computer Applications (MCA)

Birla Institute of Technology, Mesra (Noida Extension)

2023 – 2025

CGPA: 7.8

Experience

Upsala (DGIS – Ministry of Defence)

Software Developer – i-SAMA Project

Dec 2025 – Present

- Developing frontend and backend modules for the Intelligence Situational Awareness Module (i-SAMA) under DGIS, Ministry of Defence.
- Built real-time operational dashboards and GIS-based intelligence systems using Next.js, Redux, Python, FastAPI, and PostgreSQL.
- Integrated APIs from 15+ external defence applications into a centralized operational intelligence platform.
- Led secure cross-application data flow integrations, reducing data retrieval latency by approximately 40%.
- Implemented Role-Based Access Control (RBAC), secure data pipelines, and backend services for classified intelligence workflows.
- Collaborated with cross-functional teams to deliver scalable, production-grade defence technology solutions.

Placement Plaza

Software Developer – MERN Stack

May 2025 – Oct 2025

- Worked on HRMS and E-Commerce platforms as part of collaborative product development teams.
- Developed 8+ responsive and SEO-optimized websites, improving page load performance by approximately 30%.
- Built 20+ reusable frontend components and integrated REST APIs using React.js, Node.js, Express.js, and MongoDB.
- Contributed to authentication systems, dashboard modules, debugging, optimization, and deployment workflows.

Projects

i-SAMA – Intelligence Situational Awareness Module for Army

Next.js, Redux, Python, FastAPI, PostgreSQL, GIS

2025 – Present

- Developed an advanced GIS-based battlefield intelligence and decision support platform for the Indian Army under DGIS, Ministry of Defence.
- Architected interactive real-time operational dashboards featuring dynamic map visualization, unit tracking, and multi-level command structure support.
- Designed and implemented secure backend services using FastAPI and PostgreSQL for processing intelligence data from 15+ integrated defence applications.
- Built role-based access control (RBAC), secure data pipelines, and cross-application integration workflows for classified operational intelligence systems.
- Contributed to a production-grade platform deployed for defence operations and showcased at India AI Summit 2026 alongside the Indian Army.

Technical Skills

Programming Languages: JavaScript, Python, C++

Frontend Development: React.js, Next.js, Redux, HTML5, CSS3, Tailwind CSS

Backend Development: Node.js, Express.js, FastAPI

Databases: MongoDB, PostgreSQL, MySQL

Deployment & Hosting: Vercel, Render, Hostinger, VPS Deployment, Linux Server Management

AI & Generative AI: NLP Fundamentals, Retrieval-Augmented Generation (RAG), AI Agents, LLM Fundamentals, Prompt Engineering

Tools & Technologies: Git, GitHub, Postman, REST APIs, Chrome DevTools, VS Code

Achievements

- Presented the i-SAMA (Intelligence Situational Awareness Module) project before senior Indian Army leadership during official demonstrations, launch, and inauguration events.
- Represented the i-SAMA project at India AI Summit 2026 alongside the Indian Army as a core member of the development team.
- Secured **64th Rank (All India)** in the Placement Aptitude Test 2024 conducted by IIT Kharagpur.
- Solved **300+ Data Structures and Algorithms (DSA)** problems across LeetCode and GeeksforGeeks.
